

## RIPLEY A HOOBOO FOR THE ARIZONA DIVISION SATURDAY

Engines and Cars Jumped the Track All Day.

NEW BALANCED COMPOUNDS PLAY STAR ROLE IN WRECKS

Four Small Accidents Serve to Delay the President's Special All Along the Line.

"Last Saturday was an unlucky day for the Arizona division," said P. F. Hawkins, a railroad man from Los Angeles to a Journal reporter at the local station yesterday. "You remember there was a bad wreck in Crozier canyon on that day when five Pullmans and a chair car of No. 8 went off on a tangent and blocked traffic for half a day. Then the engine of No. 2 stripped herself out there this side of Winslow and came near killing the train crew. Well that was only a starter."

"As luck would have it, that was President Ripley's day to be going over the Arizona division on a special train along with Arthur Welle and a lot more officials, all of course, in a hurry to get to California. Well, when Mr. Ripley got to Needles or almost to Needles, he found train No. 7 ahead of him, standing at a dead end. Just ahead of No. 7 was train No. 1, and just ahead of train No. 1 was a big freight drag, and just at the front end of the freight drag was a big engine off the track and sprawling all over Needles siding No. 1. Everything was tied up for awhile, but finally No. 1's engine got hold of the freight and pulled it into the clear and the trains got on to California some way over a side track. Engineer Cole and Fireman Runyon were on the wrecked engine, but neither was hurt. The ponderous machine had to be raised and a new track built under it. To cap the climax, another one of the new balanced compound engines which have been figuring in most of these little wrecks went off the track at Plute and buried her nose in the mud and gravel about four feet, piling up everything. Engineer Higgins was in the cab and jumped. So did Fireman Dressler, just in time to get a sprained ankle. Oh, I tell you Saturday was the banner day on the coast lines in Arizona."

### MUDGE SAYS ALL ROADS ARE IN THE SAME FIX

"All of the roads in the west are as short of cattle and grain cars as we are, and some of them are a good deal worse off," said Mr. H. U. Mudge, secretary of the Chicago and North Western Pacific railway to a reporter in Topeka.

"Freight traffic of all kinds and especially that of cattle and grain is unprecedented at the present time. I do not know that it has ever been so heavy before and all of the railroads are taxed beyond their capacity with the equipment at hand. It is only true that we are short of cattle and grain cars, but we are making the cars we have to double duty and conditions with us are not as bad as they are on some of the other roads."

"We are adding to our freight car equipment all the time and there is new one thousand cars under construction for us. We expect that a good many of them will be delivered soon. It is our intention to place an order soon for five or six thousand additional freight cars, but of course these will not be available until next year."

There has been a report current for some few days to the effect that the Rock Island was so short of cattle and grain cars that Mr. Mudge and the other officials of the road were trying to rent some hundred cars from roads entering Chicago that might be able to spare them.

When Mr. Mudge was asked about this report he smiled and said: "I guess there is nothing in that report. Every road in the country is as short of cars as we are, so it would be useless to try and borrow or rent cars from any of them."

**Mudge Holds the Slow Record.** Mr. Mudge, accompanied by John B. Borry, the new chief engineer of the Rock Island, and Frank T. Dolan, general superintendent of the southern district of the road, arrived in Topeka from Kansas City. They traveled in a special train of three cars and certainly hold a record for covering the distance between the two cities in a special. Some time ago President Ripley of the Atchafalaya, Topeka and Santa Fe made the trip from Topeka to Kansas City in a special in seventy minutes, running time. Mr. Mudge and his party left Kansas City at 7:50 o'clock in the morning and took three hours and forty-five minutes to reach Topeka. This is believed to be the fastest time for a special between the two cities, but it ought to be explained that Mr. Mudge's train was stopped several times to permit of an inspection of the double track line between Kansas City and Topeka. This line is used jointly by the Union Pacific and Rock Island.

### SANTA FE WILL NEVER AGREE WITH SALT LAKE

Los Angeles, Nov. 23.—Men high in railroad circles stated yesterday that they believed that the Santa Fe and Salt Lake railroads would never come to an agreement regarding an interchange of business originating on the Santa Fe tracks.

They state that the Santa Fe possesses full knowledge of the exorbitant price paid by the Salt Lake to the Southern Pacific for the use of their tracks and that they will undoubtedly hold out for as large a sum if not more.

"They further state that the business that the Salt Lake gets does not justify them in paying such a large switching charge if they are to compete with the other roads in freight rates."

"The Salt Lake cannot pay the price that will be demanded," said one of them, "unless it is going to do business for fun. Somebody must have been napping at the time that the road was built or all of these switching privileges would have been secured at the time the trackage privileges were obtained from Riverside to San Bernardino over the Southern Pacific and from San Bernardino to Daguerre over the Santa Fe."

The officials all seem to be agreed

that the Santa Fe is justified in asking for a large sum, for they can see no reason why it should give up business originating on its tracks to the Salt Lake for a long haul unless they are well remunerated.

### CALIFORNIA LIMITED MAKES A RAPID RUN

The California Limited of the Santa Fe Friday afternoon made a fine run from Barstow to Summit, the distance of 56 miles being covered in 95 minutes, which is about 20 minutes less than the schedule time for the train. While this is not fast running over that mileage on ordinary roadbed, it is remarkably fast time for the line between Barstow and Summit. The line is crossed most of the way, and the train must climb a heavy up grade to the summit of the mountain range. The train was drawn by engine 1228, one of the new balanced compounds the company has just placed in service on this division. Officials were greatly pleased by the run made by the train.

### MACHINIST HELPER IS FRIGHTFULLY SCALDED

A machinist helper named Frederick was Saturday afternoon frightfully scalded while at work on an engine at the Santa Fe roundhouse, in San Bernardino. In some manner he turned a valve, letting a jet of steam and scalding water onto himself, and before he could move or be gotten away by his companions, he was fearfully scalded, about the face, neck and chest.

### TAKE IT IN TIME

Just as Scores of Albuquerque People Have.

Waiting doesn't pay. If you neglect the aching back, Urinary troubles, diabetes, surely follow.

Doan's Kidney Pills relieve backache. Cure every kidney ailment. Albuquerque citizens endorse them. Mrs. M. J. Butler, residence 717 East street, says: "When I went to the Alvarado Pharmacy for Doan's Kidney Pills I had an attack of backache. It was only one of many which had annoyed me for two or three years. At first they were mild and I expected they would leave just as mysteriously as they came, but with the passing of time the attacks were more frequent and of longer duration. I used three boxes of Doan's Kidney Pills and was rewarded with an entire cessation of the aching. Up to date, and it is considerably over six months since I stopped the treatment, there has not been a sign of any recurrence."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

# THE ECONOMIST

Albuquerque's Brightest and Busiest Store

WE DEPEND upon the patrons of this store for its most effective advertising. Every one of our customers will some time—somewhere—say words that count for or against us. It is a fact of which we are keenly sensible that one dissatisfied customer can do any store much temporary injury. This being so we cannot afford to have dissensions on the part of our customers—any of them—great or small—rich or poor—and if anything has occurred or shall occur in the course of trading here that is unsatisfactory, will you not as an especial favor advise us of the facts and we will most gladly adjust the wrong. We know our friends will not expect us to smooth up the little rough spots and annoyances until we have learned of their existence.
